

Moving Muscles Ride 2008

In October 2005 Keith Martin found out that he had muscular dystrophy. He vowed to his family and friends that he would not let it interfere with his life ...

On May 13, 2008, Keith, Patrick Cuthbert, Michael McDonald, Jonathan Taves, and Brian Sprague got on their bikes in Tofino, British Columbia, and started pedalling ...

Eighty-five days and 7800 kilometres later a cheering crowd greeted them in St. John's, Newfoundland. Their cross-Canada journey raised more than \$155,000 for muscular dystrophy research!
